Multi-Agency Training Programme

April 2016 – March 2017 (rev: July 2016)
Introduction

Welcome to the City and Hackney Safeguarding Children Board training programme 2016 - 17.

The world of safeguarding is complex, demanding and absolutely necessary; and nothing is more important than helping and protecting our children and young people.

Working together to make children and young people safer is the primary aim of the City & Hackney Safeguarding Children Board (CHSCB); and it is essential that professionals are equipped with the knowledge, skills and experience that will help them meet their safeguarding responsibilities effectively. The CHSCB training programme exists for exactly this reason.

At the core of our safeguarding and child protection work is the message that children and young people need to be seen, heard and helped and that we truly understand what life is like for them. We want to learn from these experiences and have a positive impact upon young lives. We want our work to be characterised by an attitude of constructive professional challenge and we want to foster a culture of continuous learning and review that inspires innovation, whilst always making sure we’re doing the basics right.

The training courses on offer in this programme are open to all practitioners working with children and young people across the City of London and the London Borough of Hackney. This programme provides details of CHSCB courses designed to assist professionals to develop the knowledge, skills and attitudes that they need in order to contribute positively to multi-agency working and to achieve better outcomes for children and young people.

Recognising the pressure of the day to day practice on front line staff, a variety of training and awareness-raising methods are also employed by the CHSCB to maximise attendance. These range from providing lunchtime seminars (held in local venues in both City of London and Hackney) to e-learning, enabling staff to “power-learn” when time is tight. The CHSCB also hosts an Annual Conference that engages the wider professional network to deliver key safeguarding messages and learning.

The courses in this programme were developed by considering the competency needs of agencies to safeguard children and young people focusing on the needs identified from the annual staff survey (which captures local individual knowledge and need), themes from local, national reviews and the core competency requirements outlined in Competency still Matters (2014) and the Intercollegiate document (2014). The programme aligns with the CHSCB Business Plan for 2015-17 core priorities including early help and early intervention; together with courses that address safeguarding matters specific to the context of work within the City of London and the London Borough of Hackney.

CHSCB Independent Chair
**CHSCB Multi-agency Learning and Development**

The courses run by the CHSCB are delivered to a multi-agency audience which means that professionals from different organisations and backgrounds join together for a shared learning experience with an emphasis on building relationships and working together. The CHSCB training encourages the notion that safeguarding children is everybody’s responsibility. The Safeguarding Training Coordinator retains the right to allocate training places at their discretion to ensure good representation from each agency and a multi-agency balance on training courses.

Multi-agency training enables staff to work effectively both within their own agency and across organisational boundaries. Training people together can make a significant contribution to building mutually respectful and trusting relationships, which forms the foundation of any partnership working.

CHSCB training aims to:
- Improve communication between professionals and others working with children, young people and families
- Develop a shared understanding of roles and responsibilities
- Contribute to whatever actions are needed to safeguard and promote the child’s welfare
- Improve assessment, analysis and decision making
- Improve effective working together based on sound working relationships.

All CHSCB training courses will be multi-agency.

**Before undertaking CHSCB training, it is preferable that you have completed an introductory course in safeguarding children.**

*Individual agencies and employers are responsible for ensuring that their staff are competent and confident in carrying out their responsibilities for safeguarding and promoting the welfare of children and young people, and in order to fulfil their safeguarding duties as identified in Working Together to Safeguard Children 2015.*

**Completion of Group A or similar training will be a prerequisite to attendance at any course for Group B and above.**
How to apply
Application for any of the CHSCB courses outlined in this programme can be made online via the Training and Development section of our website [www.chscb.org.uk](http://www.chscb.org.uk) To apply for a course you will need to complete the online application form. Successful applicants will be sent joining instructions two weeks prior to the course starting. If you have a line manager, please discuss your application with them and gain their agreement to your attendance on the training and confirmation that they will release you on the relevant date.

Pre course preparation
Child protection training can include subjects that participants may find difficult. Please consider where you can gain support after the course. For CHSCB courses you will need to be prepared to actively participate within the workshops and discussions in order to give you the best training and learning experience possible.

If you have any difficulty applying or have any other query regarding our courses, please contact:
CHSCB Safeguarding Training Co-ordinator
0208 356 4826
[chscb@hackney.gov.uk](mailto:chscb@hackney.gov.uk)

Cost of Courses
CHSCB courses are free of charge to all partner agencies. Any delegate who is allocated a place on a training course must give [5 working days](https://www.chscb.org.uk) notice before the course date if they are unavailable to attend, so the that the place can be offered to somebody else.

In the absence of receipt of a cancellation or notification of unavoidable absence, the agency will be charged a £50 non-attendance fee.

If there are genuine extenuating circumstances such as illness that prevents a delegate from attending (which are confirmed by line manager) the agency will not be charged.

Venues
A range of venues across the City of London and Hackney are used for training and are chosen for quality and best value. If you have any special requirements please state this on your application.

NB: Refreshments are provided on our courses but lunch is not.
Completion of course
Certificates of attendance from the City and Hackney Safeguarding Children Board (CHSCB) are issued to all delegates who have successfully completed a full training course. This certificate is valid for 2 years and can be used to demonstrate professional development. Participants are responsible for keeping their own record of learning.

Levels of Training
In order to meet the differing levels of training needs across the range of agencies and staff roles, the courses are categorised into three different groups targeted according to the level of contact with children and families and level of responsibility for safeguarding children. Details about the groups and their correlation to the Intercollegiate document can be found from page 37 in this programme.

**Which training is right for me?**

**Group A training is for people who:**
- are in contact or work regularly with children and young people and with their parents/carers
- have a responsibility to contribute to safeguarding and promoting the welfare of children in the community but do not necessarily have specific organisational responsibility or statutory authority to intervene in the lives of children and their families
- require the skills and knowledge necessary to manage the interface between themselves and statutory agencies (if not employed in one), and where appropriate the child and family need to understand the nature of worries about children’s welfare and the systems in place to safeguard children from harm and promote their welfare.

**Group B training is for people who:**
- work regularly with children and young people and adults who are parents/carers and may have particular responsibility for safeguarding children
- need to be able to act on child welfare concerns and to contribute appropriately to the processes described in *Working Together to Safeguard Children* (HM Government 2015)
- need to be able to work within an inter- or multi-agency context
- need an understanding of the processes set out in the *London Child Protection Procedures* and the underpinning knowledge required to support their implementation
- should be able to provide information on the child’s developmental needs and circumstances, if appropriate convey accurately the child’s views and advocate for or take action that will be in the best interests of the child.

**Group C training is for people who:**
- are operational managers in organisations employing staff to work with children and families or with responsibility for commissioning or delivering services
- have strategic and managerial responsibility for commissioning and delivering services for children and families
- hold supervisory responsibility in relation to safeguarding and promoting the welfare of children
- hold particular professional/organisational authority and a substantial degree of personal responsibility and autonomy to act on child welfare concerns, including those where a child is or may be suffering significant harm
- work extensively within an inter- or multi-agency context
- often have responsibility for the work of others.

*If you are unsure which category is appropriate, please speak to your manager.*

**Frequency of training**
CHSCB recommends that all child protection training is refreshed every three years with the exception of Designated Persons for Child Protection within Schools and Early Years providers who should refresh training every two years.
This diagram highlights the link between the CHSCB group training courses and the Intercollegiate and LCPP Competency matters Levels.
Training evaluation and impact

To support the CHSCB in determining the impact of multi-agency training evaluations are completed: that considers participants' confidence and knowledge and how this improves their ability to safeguard children and young people in their local area.

**Stage 1**
Pre course evaluation
All participants will be asked a question about their learning needs as part of the application before attending the course.

**Stage 2**
End of Course evaluation
All participants will be asked to complete an evaluation form at the end of all course.

**Stage 3**
Post Course evaluation (1)
All participants will be contact 6-8 weeks after the course and asked to complete a short on line evaluation form.

**Stage 4**
Post Course evaluation (2)
A random selection of participants and their line managers will be contacted 8-12 weeks after the course by telephone. Questions will be asked to gain an understanding of the impact on the participants confidence, knowledge and practice.

Improving practice in communicating with children and young people

Aim of the course:
- This course will look at the reasons why listening and talking to children and young people is problematic and suggest techniques for overcoming some of the reservations that professionals feel in working with them. It aims to increase the competence and confidence of participants in working effectively with children for different purposes and across a range of settings.

Outcomes:
By the end of the training participants will have had the opportunity to:
- Consider child development and how children communicate, including awareness of different communication needs due to language or disability
- Understand more about the systemic barriers that exist to keeping the child in mind and become more aware of their own ‘blind spots’ in this area
- Review the importance of child development in assessing and safeguarding children
- Consider what is involved in meeting children for the first time and the necessity of careful planning, preparation and use of language in these circumstances
- Examine the challenges of communicating with children who may be at risk of significant harm and the role of communication in securing their safety

Facilitator: Gretchen Precey, Independent trainer
