

City and Hackney Multi-agency case audits (MACAs)

City & Hackney Safeguarding Children Board undertakes a schedule of multi-agency case audits as part of its statutory function under Section 14 of the Children Act 2004. These audits enable the Board to monitor the effectiveness of safeguarding practices, recognise areas of good practice that can be shared and built upon and identify areas in which there may be policy, training and developmental needs.

Each round of audits focusses on front-line, multi-agency practice. The theme of each audit changes dependent on national/local issues or priority areas for the Board. The map below provides oversight of the process and how it helps the Board to identify, disseminate and embed learning across the partnership.
